To the Member of Legislative Assembly Province of Saskatchewan

I have audited the statement of financial position of **Irrigation Crop Diversification Corporation** as at March 31, 2011 and the statements of revenues and expenses, changes in net assets and cash flows for the year then ended. These financial statements are the responsibility of the company's management. My responsibility is to express an opinion on these financial statements based on my audit.

I conducted my audit in accordance with Canadian generally accepted auditing standards. Those standards require that I plan and perform an audit to obtain reasonable assurance whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation.

In my opinion, these financial statements present fairly, in all other material respects, the financial position of the company as at March 31, 2011 and the results of its operations and its cash flows for the year then ended in accordance with the Canadian generally accepted accounting principles.
